***Response to Amendment***

1. In the amendments filed 4/30/04 and 8/20/04, the following has occurred: claims 1, 22, and 31 have been amended. Now, claims 1-7 and 22-36 are presented for examination.

***Allowable Subject Matter***

1. Claims 1-7 and 22-36 are allowed. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of claims 1-7 and 22-30 is the inclusion of the limitation, in all the claims which is not found in the prior art references of incorporating, within an integrated healthcare system, a data dictionary that ensures standardization of all system database elements by incorporating the various rules and definitions to identify and eliminate potential incompatibilities or problems. Although the closest prior art (Cummings) teaches an integrated healthcare system that includes many of the recited components, it fails to teach a data dictionary including field definitions, codes/values, rules, owner ID, and references as recited in the claims. Additionally, although Edelson does teach a form of data dictionary, the reference fails to teach that the data dictionary includes field definitions, codes/values, rules, owner ID, and references as recited in the claims.

In Addition, the primary reason for the allowance of claims 31-36 is the inclusion of the limitation, in all the claims which is not found in the prior art references of providing, within an integrated healthcare system, a data dictionary that ensures standardization of all system database elements by incorporating the various rules and definitions to identify and eliminate potential incompatibilities or problems. Although the closest prior art (Cummings) teaches an integrated healthcare system that includes many of the recited components, it fails to teach a data dictionary including field definitions, codes/values, rules, owner ID, and references as recited in the claims. Additionally, although Edelson does teach a form of data dictionary, the

reference fails to teach that the data dictionary includes field definitions, codes/values, rules, owner ID, and references as recited in the claims.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Perednia et al. discloses various uses of technology in telemedicine.
